facebook.com

Thailand announced the cancellation of the selection process for Internet Ticketing Operator (which had been going on since Aug 2012) without giving any reasons or explanation.

Fact is thairailticket passes all aspects of the selection while the other (thai ticket major) who proposed offline, manual and non-realtime process and therefore failed both the technique and the test. But Thai Railway scraps the selection process cold!!!

San Francisco Trees 📹 🌥

Top 30 Reference app in the USA!

Have you ever wondered about some of the beautiful trees you walk past every day? Do you know their names and types? Perhaps you'd like to plant a similar one in your own back yard, or you'd just like to know a bit more about your surroundings? Well now you can...

Walk up to any tree in the leafy city of San Francisco and find out exactly what type of tree you're looking at! SF Trees will tell you both the Latin and the common name for that tree as well as all the other trees in your vicinity.

Go on, give it a hug - you've already been introduced!

This app is based on data provided by the San Francisco Department of Public Works (SFDPW) and contains details of the nearly 65,000 trees from the Golden Gate

trees you walk past every day? Do you know their names and types? Perhaps you'd like to plant a similar one in your own back yard, or you'd just like to know a bit more about your surroundings? Well now you can...

Walk up to any tree in the leafy city of San Francisco and find out exactly what type of tree you're looking at! SF Trees will tell you both the Latin and the common name for that tree as well as all the other trees in your vicinity.

Go on, give it a hug - you've already been introduced!

This app is based on data provided by the San Francisco Department of Public Works (SFDPW) and contains details of the nearly 65,000 trees from the Golden Gate Bridge down to Daly City that they keep track of and/or maintain.

You can search for trees around your current location, or look at trees in another area (out of curiosity, or perhaps for a friend or relative) via a simple search. The search can be as specific as house and street number such as "1509 Haight Street", an intersection eg. "Mission and 16th", or even just a ZIP code like "94102". Distances can be displayed in English or metric units (configured in the application preferences).

SF Trees uses the built in GPS on the iPhone to get your current location, but can also locate an iPod Touch in built-up WiFi areas. If your location cannot be determined automatically then you can always enter your street address to get started. Please note that an internet connection is required to get location and map data.

San Francisco Great Tree Count Event in Washington Square Park

by Kelaine • September 25, 2012

San Francisco tree lovers: Please join Friends of the Urban Forest this Sunday, September 30 at 1 pm as we map the trees of Washington Square Park onto the Urban Forest Map!

We'll kick-off the Great Tree Count by inventorying one of the city's beloved public spaces. It's a great place to start because it's full of trees, but funding difficulties mean that the trees haven't been properly inventoried (compare the image from Google Maps with the trees showing on the Urban Forest Map.

greattreecount.org

Urban Tree Key and the latest stats in San Francisco

by Kelaine • October 3, 2012

Hey San Francisco Tree Counters—you're doing great so far! More than 500 trees have been added to the <u>Urban Forest Map</u> and we're only half way through the week. Remember all you need is a smartphone or a piece of paper to get started. So head out there to your favorite trees and get them documented on the Map!

When you're unsure what kind of tree it is

I've had some questions about what to do if you don't know the species of a tree. Here are a couple of suggestions:

- You can always leave the species field blank on the Urban Forest Map. Just adding a dot to mark the location of a tree that wasn't noted before is helpful!
- Check out the Urban Tree Key at www.urbantreekey.org. We created this site with the 50 most common species you'll find out there on the streets. Just start by looking at a set of pictures and figuring out which looks most like your tree.
- Take a picture of the leaf and upload it to that tree's page. Someone can follow behind you and enter that information later. Remember-it's a community project, we're all in it together!

Getting started

by Kelaine • September 3, 2012

You can get started in a couple of ways:

- Dive right in and start exploring the map for your city!
 - If you're in San Francisco, that would be the Urban Forest Map
 - If you're in one of the six counties of the Capital region, it would be the GreenprintMaps.
- You can join us for the "Bootcamp Training" leading up to the Great Tree Count.

Bootcamp Training

Each week throughout September, we'll be reviewing some of the things that are helpful to know about mapping trees and using the Tree Maps. You can jump in at any time, or you can start with Week 1 and catch up.

GENERAL

Welcome to the Great Tree Count!

by Kelaine • August 30, 2012

Welcome tree lovers and citizen foresters of San Francisco and the six-county Capital region! We're thrilled to have you join us to explore our urban nature, help us map the trees around us, and along the way, provide scientists, urban forest managers, and many others with the information they need to make our cities greener and healthier.

Starting the week of September 3rd, we'll be running a little "Bootcamp Training" session here on this website, and we invite you to follow along! Don't worry, there won't be any early rising or pushups and running—just some quick and easy lessons on inventorying trees and using the Tree Maps.

To keep up, you can check back here or you can Like us on Facebook:

- San Francisco tree lovers: the Urban Forest Map
- Sacramento and surrounding areas: GreenprintMaps

How-tos

Measuring trunk size

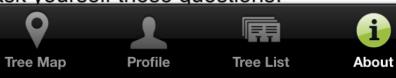

Measure the trunk at a height of 4.5 feet from the ground. For complicated situations like trees with bumps or forked trunks, our video has more information.

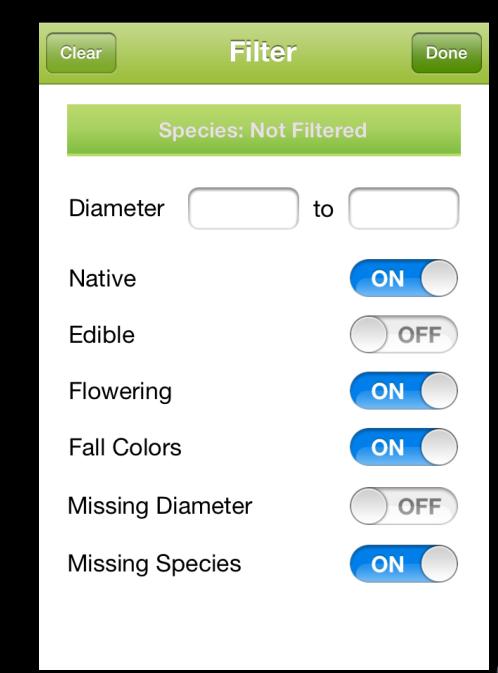

Determining tree species

If you're not sure about the species of your tree, a good place to start is the <u>Urban</u>
<u>Tree Key</u>. Still not sure? Just leave that field blank!

Condition

Assessing condition is one of the most challenging aspects. Don't worry—we don't expect an expert opinion. You might ask yourself these questions:

•••• my 중

How-to, no. 2: Measuring trees

by Kelaine • September 21, 2012

We won't just be *counting* trees during the Great Tree Count, we'll actually be collecting a bunch of data and adding it to <u>GreenprintMaps</u> (for the six-county region around Sacramento) or the <u>Urban Forest Map</u> (for San Francisco). One of the most valuable pieces of information is the size of the tree's trunk. We use this data to do the following:

- Estimate whether the rate of growth over time is healthy. Trees that are growing very slowly may need help.
- Calculate the environmental benefits the tree is providing.
- Determine whether our urban forest has a good age diversity: do we have too few young trees or too few old trees?

Measuring the trunk size can be a bit tricky in some cases, so we've created a <u>great little video</u> to offer some help in the many situations you might run up against.

Here's a summary of what you need to know:

- You can measure either trunk diameter or trunk circumference. Just be sure to note which one you've done.
- Foresters and scientists have historically measured the trunk size "at breast height". While there's a certain poetic quality about that, it's a little confusing, since that height isn't the same for all of us! The exact height you want to measure the trunk at is 4.5 feet above the ground. It's easiest to just figure out the point on your own body that is 4.5' high and remember it. (For me, it's right at my collarbone.) Then when you measure the tree, just run the tape measure around the trunk at that height!
- A regular tailor's tape measure is just fine for measuring trees, but you might want to have two on hand. Some trees will be bigger than 60" around!

Reputation

You might have noticed "reputation points" on your profile page. You get 25 points for every tree you add and 5 points for every edit you make.

Donating

If you'd like to support the urban forest, click here!

Help

Problems with the app? Your species missing from the list? Just need more help? Contact us by email.

Tree List About

(1X)

Condition

Tree Map

Assessing condition is one of the most challenging aspects. Don't worry—we don't expect an expert opinion. You might ask yourself these questions:

- Is the tree dead or dying? If so, this is an easy condition to recognize!
- If not, are there any obvious defects, such as funguses growing from the trunk, large areas of missing leaves in the canopy, a hollow trunk, dead limbs or signs of insects? These trees should get a lower rating, such as poor or fair depending on how severe the problems are.
- If these kinds of problems are absent, give the tree a higher rating. Generally speaking, if you're rating most trees as "good", you're probably on the right track.

HOW-TOS, WARM-UPS

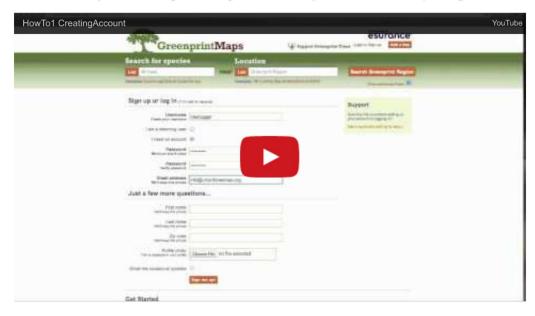

How To, No. 1: Creating an Account

by Kelaine • September 7, 2012

You can do a lot of exploring of the trees around you on GreenprintMaps and UrbanForestMap right away, but to add trees to the Maps you'll need to create an account. Our first how-to video below shows you how!

Here's a sum-up of the steps:

- For San Franciscans, go the <u>Urban Forest Map</u>. For folks in the Sacramento region, go to GreenprintMaps.
- 2. Click on the link at the top right that says "Sign up."
- 3. Enter a username (we'll tell you right away if your first choice is already taken).
- 4. Enter a password twice.
- 5. Enter your email address. This is critical, since a link will be sent to you at this address.
- 6. Add your name and zip code.
- 7. If you'd like to include a profile picture, click "Choose file", navigate to the place on your computer where the picture is and select it.
- 8. If you'd like to receive very occcasional email updates, check that box.
- 9. When you're finished, click "Sign me up"!
- 10. In the email account you entered earlier, find the email from us and click the link inside to activate your account.
- 11. You're ready to start adding and editing trees! We'll tell you how to do that in upcoming "how-tos."

Find Recycling

Find Toilets

Top 40 Navigation app in Australia! Top 50 Navigation app in the UK!

Find nearby public toilets wherever you are in the world!

Search for public toilets around your current location using the GPS built-in to your iPhone, or look for conveniences around your destination via a simple place name or postcode search (this works for iPod

Touches too). Don't waste time trying to find your way to the loo either, as once you've selected your nearest toilet this app will guide you directly to it with a customised route map! All you have to do is hold it until you get there!

We've got tens of thousands of WC's all over the world in this app and near complete coverage throughout Australia, however we're always on the lookout for more. So if you see a public toilet and it's not listed then tell us about it! You can do this directly in the app and we'll submit it to the OpenStreetMap project to help other people from being caught

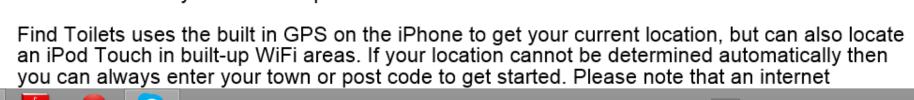

short, wherever in the world they live - even if they are not using our app. We want this data to be made as widely available as possible!

Find Recycling 🐞 🌥

Find a nearby recycling point and help save the planet!

We all know that recycling is important and that we should be looking to recycle and re-use as many of the earth's precious natural resources as possible, but sometimes finding WHERE you can recycle a

particular item can be quite an effort. The Find Recycling app allows you to locate various recycling points around your current location and will then guide you there with a map.

You can also search for recycling points elsewhere via a simple place name or postcode search to help friends or relatives properly dispose of their old waste from glass bottles to batteries to TV's.

We need your help! Built-in coverage varies by country and city. Some areas have near complete coverage while other areas are less well covered - if at all in some cases. However, this app is now free so if

your submitted recyling point on to OpenStreetMap in order to share the data.

your local recycling point is not yet listed then please add it! With your permission we'll also pass Current coverage:

Contact

Ireland $\star\star$ Italy Luxembourg $\star\star\star$ The Netherlands $\star\star$ $\star\star$ Norway Sweden $\star\star$ Switzerland *** UK $\star\star$ USA

There are recycling points all over the world in this app already but we know that we have not mapped them all yet and so we'd like your help. If we don't have your local recycling center then please just add it and help other users in your area to do their bit for the planet too. To add a new location, simply stand in front of it with your iPhone and tick the types of recycling offered. If you know it, you can add the name of the center and the opening hours in too, but it's not required. We'll then check your submission and feed the update back into our database to help all future users.

Find Recycling uses the built in GPS on the iPhone to get your current location, but can also locate an iPod Touch in built-up WiFi areas. If your location cannot be determined automatically then you can always enter your town or post code to get started. Please note that an Internet connection is required to get location and map data. All edits are also submitted to the OpenStreetMap project.

 Equity -base d Crowdfunding เป็นรูปแบบที่ใช้กันอยู่ทั่วในของกิจการที่ เพิ่มรับตัน (start-ups) ที่อักจะเป็นการลดาน ที่สนับสนุนกิจการที่เป็นการเลิกประกันสนุนการ ได้รับการเสนอรายฟุ่นและได้รับผลดองระทน จากพันนัก

ในสหรัฐอเมริกา เมื่อวันที่ 23 ๆสารม 2013 คณะกรรมการ Securities & Exchanges Commission with SEC Transferoments เป็น Title III of the 2012 Jumpstart Our Business Startups Act wile JOBS Act โดยมีสาระสำคัญคือเรื่อง Crowdlunding แต่ร่างกฎหมายนี้ก็มีเรื่องที่ต้องถกเถียงกังมาก

ประเทศไทยก็จะมี 'Crowdfunding'

ระหมานของ Crowdfunding อยู่หลายอัน in localstake.com, Potluck Capital, Mosaic. SunFunder และอื่น ๆ เรียกว่า ขอให้อายุ 18 ปีขึ้นไป (อายุของคนที่จะลงทุน ได้ตามกฎหมายสหรัจอเมริกา) กับมีบัญชี รนาคารก็พอ ทุกอย่างทำผ่านอินเทอร์เน็ตหมด ประชาชนทั่วไปสามารถจองชื่อหลักทรัพย์ได้

อันว่า Crowdfunding นี้ได้เดิบโตอย่าง รวดเร็วทั่วโลกในระยะเวลา 5 ปีที่ผ่านมามี Crowdlanding คือ การระดมทุนจำนวน เงินทุนาว่า 64 ล้านตอลลาร์ และมีมูลค่า การตลาดกว่า 1 พันล้านดอลลาร์ใน สหรัฐอเมริกา อังกฤษ รวมทั้งจีนด้วย และยัง กำลังภิคชื่นในอีกหลายประเทศรอบโลก

ช้อดีของการระดมทุน Crowdfunding รือ การให้กิจการขนาดเล็กมีโอกาสระคมทุน เพราะกิจการขนาดเล็กยังไม่สามารถระดมทุน จาก IPO ได้ และเป็นการกระจายความเลี้ยง ไปยังผู้ลงทุนซึ่งมักจะเป็นบุคคลธรรมดา และละทุนคนละไม่มาก การระคมทุนแบบ Crowdlunding นี้ยังมีค่าใช้จ่ายต่านต์ให้ผล ตอบแทนแก่นักลงทุนสูง นอกจากนี้ พวก นินทุนแก้จากรที่เพิ่มเริ่มตั้งเช่น Venture Capital ก็อาจจะเข้าถึงได้ยากกว่า ขณะที่ Crowdlunding สามารถการระดมทุนโดยตรง AULITHIER BAN

แต่ในขณะเดียวกันการระดมทุนแบบ Crowdfunding ก็มีความเสียงอยู่หลาย ประการ เช่น การฝึดสัญญาและกิจการประสบ หารเกิดเหลาของการใบเลาๆแม้สุดถึง 50%

Crowd-funding: An Infant Industry Growing Fast ของ IOSCO (The International จนถึงปัจจุบันเป็นเวลาปีเศษแล้ว ร่างการเกล Organization of Securities Commissions ดังกล่าวก็ยังไม่มีที่ทำว่าจะได้ออกเป็นการขาย หรือองค์การ ก.ล.ต. สากล) ซึ่งเพิ่งเผยแพร่ ปี 2014 นี้เองที่ http://www.iosco.org/ research/pdf/swp/Crowd-funding-An-Infant-Industry-Growing-Fast.pdf)

การระดมทุนในรูปแบบของ Crowdfunding ที่ใช้กันอยู่นั้นอาจแบ่งออก ได้เป็น 4 รูปแบบคือ

1. Donation-based Crowdfunding ผู้ลงทุนสัญญาว่าจะให้เงินทุนโดยไม่ คาดหวังว่าจะได้สิ่งใคตอบแทน รูปแบบนี้ เหมาะสำหรับองค์กรที่มีวัตถประสงค์ที่ทำ ประโยชน์แก่ลังคม

2. Reward-based Crowdfunding

ผู้ลงทุนสัญญาว่าจะทำการลงทุนโดย ได้รับผลตอบแทนจำนวนน้อย ส่วนใหญ่ใช้กับ วิสาหกิจทางสังคม (social enterprises)

3. Loan-based or Peer-to-Peer Lending

เป็นรูปแบบการกู้ยืมเงิน รูปแบบที่ใช้ กันอยู่ทั่วไปมี 2 แบบคือ รายได้แบบการมี ส่วนร่วม (revenue participation) หมายถึงผู้ ลงทุนได้รับส่วนแบ่งเป็นร้อยละของการขายเป็น ระยะเวลาหนึ่งแต่ไม่คาดหวังการชำระหนึ่งในกุ้ คืน กับรายได้แบบตอกเบี้ย (revenue interest) หมายถึงผู้ลงทุนได้รับจะได้รับตอกเบี้ยในอัตรา ตายตัวเป็นระยะเวลาหนึ่ง และเมื่อสิ้นระยะเวลา ที่กู้ยืมก็จะได้รับเงินกู้ดีน

งนกระทั่งบัดนี้เมื่อกาดเวลาผ่านใปสุดตัวแลนอ ใช้บังคับ รัฐต่าง ๆ 11 รัฐที่ทนออไม่ไหว ก็เลย ออกกฎหมายของรัฐในการทำ Crowdlunding แต่กฎหมายของรัฐก็มีผลเฉพาะ Crowdfunding ที่เสนอขายในรัฐเท่านั้น จะไปเสนอขายนอก เขตแดนของรัฐไม่ได้

ในสิงคโปร์ Crowdfunding ไม่ได้ถูกควบคุม โดยกฎหมายใดโดยตรง เว้าแต่การกระทำของ Crowdfunding จะไปเข้ากฎหมายนั้น เช่น การ เสนอขายทุ้น เป็นต้น ทาง Monetary Authority of Singapore (MAS) ก็กำลังติดตามเรื่องนี้ อยู่ว่าจะเอาอย่างไร แต่ในขณะเดียวกัน ก็มี platform เกี่ยวกับ Crowdfunding เกิดขึ้น หลายอันเช่น ToGather.asia, Crowdonomic. Cliquefund และ Crowdtivate เป็นต้น

เมื่อวันที่ 21 สิงหาคม 2014 ทาง The Securities Commission ของประเทศ มาเลเซียก็เพิ่งจัดทำ consultation paper เพื่อสอบถามความเห็นเกี่ยวกับกรอบของ กฎหมายสำหรับ Equity Based Crowdfunding ในมาเลเชีย เป็นการแสดงถึงความคิด ที่จะมี Crowdfunding ให้ประชาชนได้ลงทุน

การที่ ก.ล.ต. ของไทยมีแนวความคิด เกี่ยวกับ Crowdfunding จึงนับว่าทันยุคสมัย เราคงจะรอดูกันต่อไปว่า Crowdfunding ชองไทยจะออกมาหน้าตาอย่างไร ต้องมี กรอบทางกฎหมายแค้ไหน ในการเปิดรับพืง ความเห็นที่จะมีเร็ว ๆ นี้

2. Areas of electronic government where good practices were studied

2.1. Areas of interest defined as a result of the baseline study of the needs and tendencies in the area of electronic government

Based on the baseline study of the needs in the area of e-government, the team of experts recommended the following areas (ranked by priority) to be discussed in order to come up with 3 areas of interest for the partner states (areas for examination) in which up to five projects to be identified for on-the-spot examination:

- Management of knowledge and information within and between administrations (interinstitutional);
- 2. Electronic identification;
- 3. Point of single contact for business servicing (pilot project: starting SMEs in a specific sector, e.g. tourism);
- 4. Internal administrative electronic services, such as:
 - Centralized electronic settlement and financial system;
 - Electronic public procurement;
 - Electronic knowledge management system (e-archives, sharing of e-documents, etc.).
- 5. Open linked data access to data and registers, identification of pilot projects;
- 6. Electronic public procurement at transaction level (full process);
- 7. Methodology for PPP project implementation, in conformity with the requirements of ESF, based on good practices (projects) in e-government;
- 8. ESF should support projects for research, monitoring, progress evaluation and identification of measures for the electronic service delivery, implemented by NGOs and academic structures as a whole, by individual administrations, local government administrations. Raising the capacity of the administration to attain its objectives and perform its tasks regarding e-government development through the introduction of the competition principle and the assessment and benchmarking of e-government good practices developed by different administrations.

2.2. Areas of interest, indicated by the partner states and by the MTITC of the Republic of Bulgaria on the basis of the baseline study

The Bulgarian Ministry of Transport, Information Technologies and Communications (MTITC) gave following opinion and ranking of the three main priorities:

1 Internal administrative electronic services, such as centralized a settlement and financial

Urban Prototyping (UP) Singapore is a new movement where people from the public, private and people sectors come together to tackle the wide range of social and environmental challenges facing our cities.

The first UP Singapore event was held in June 2012, with about 1,000 people from all walks of life taking part over the course of our events and World Cities Summit exhibition.

Since then, we have organised eleven of these "civic" hackathons and twenty related events involving almost 2,000 participants. This pool of participants have grown to become the UP Singapore Community.

application that helps the hotline operator alert volunteers to find last-minute replacements and allows available volunteers to 'claim' jobs based on their locations.

Find out more.

NVPC Challenge

Vertical Kampong is an initiative by the National Volunteer Philanthropy Centre (NVPC) that aims to raise the Kampong Spirit by promoting neighbourhood-based volunteerism and 'Community Mapping', which involves engaging and mapping local residents and 'hotspots'. The Challenge is to create an application that facilitates the collection, visualisation and sharing of information and insights into communities.

Find out more.

Red Cross Challenge

The Red Cross has five service areas: Community Services, First Aid Training, Blood Donor Recruitment, International Response and Disaster Relief. For this Challenge, we focus on solutions to enable efficient resource mobilisation within the two Community Services areas, namely Transport Aid and Community First-Aid. By increasing efficiency through mapping and routing ambulances / transporters or better managing volunteer first-aiders, for example, we enable Red Cross to serve more people in need.

Find out more.

SG Enable

SG Enable is an agency dedicated to enabling persons with disabilities. The Challenge is to collect more information on and celebrate the myriad of actions and activities already happening in the community as we work towards a more inclusive society; and to locate and match volunteers, persons with disabilities and even their caregivers based on proximity and capabilities or needs.

me > Data Sharing Principles

e following data sharing principles aim to guide the Government agencies' Open Data efforts.

e principles are:

1) Data shall be made easily accessible

Data shared publicly shall be shared on data.gov.sg or OneMap. For data that requires registration for access (e.g. APIs or chargeable datasets), a sample of the dataset should be made available prior to registration.

2) Data shall be made available for co-creation

All data shared publicly should adopt data.gov.sg's Terms of Use or ensure that the current Terms of Use allow for co-creation.

3) Data shall be released in a timely manner

All data should be made available as quickly as possible. Information on the frequency of data updates shall be provided in the metadata.

4) Data shall be shared in machine-readable format

Unless it is not available, all data shall be published in machine-readable format (e.g. XLS, CSV).

5) Data shall be as raw as possible

Data should be shared in as granular a form as possible but without compromising on data confidentiality or privacy.

nile we recognize that all the datasets that have been released may not fully adhere to the above principles, we are working towards to ared goal of improving the accessibility and quality of our datasets to meet our objectives.

***** 76% **■**

The term e-government is of recent origin and there exists nee the conceptual understanding is still evolving. The generally e-government or electronic government refers to the use ommunication Technologies (ICTs) by government agencies following reasons:

- Exchange of information with citizens, businesses c departments
- Speedier and more efficient delivery of public services
- Improving internal efficiency
- Reducing costs or increasing revenue
- Re-structuring of administrative processes (http://www.ni

The essence of e-Government can be summarized as: "The akeholders through transformation" Conventional delivery system of a property of the restricted coverage though internet, like power at a Thoragia widespread societal.
